PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience in Java, Spring Boot, REST APIs, React.js, MySQL, and JUnit. Skilled in building scalable backend services, integrating RESTful APIs with front-end applications, and developing responsive UI components. Experienced in Agile SDLC practices including development, unit testing, and deployment. Seeking an entry-level Full Stack Java Developer role to apply backend and React.js skills in a professional environment.

TECHNICAL SKILLS

Programming	Java, JavaScript, SQL
Core Concepts	Object Oriented Programming (OOP), Data Structure & Algorithm (DSA), Agile SDLC
Backend	Spring Boot, REST APIs, JUnit
Database & Tools	MySQL, Git & GitHub
Frontend	HTML5, CSS3, React.js
Soft Skill	Communication, Teamwork & Collaboration, Ensuring on-time project delivery

INTERNSHIP EXPERIENCE

Web Development Intern | Syscrop Technology | January 2025

- Designed and developed a responsive portfolio website using HTML5 and CSS3, implementing clean layouts with Flexbox/Grid for seamless display across desktop and mobile devices.
- Translated UI/UX design concepts into functional web pages, focusing on semantic HTML structure, consistent styling, and cross-browser compatibility.

PROJECTS

Secure RAG-Based Technical Support System using LLM

Technologies: React, Python, FastAPI, RAG, TinyLlama 1.1B, ChromaDB, MongoDB, JWT, RBAC

- Developed an AI-powered technical support system using RAG to provide organization-specific, context-aware responses from internal technical documents.
- Implemented BGE-small embeddings and ChromaDB to retrieve relevant technical information before generating responses using TinyLlama 1.1B.
- Improved data security and access control using JWT authentication, RBAC, and multi-tenant isolation, with MongoDB for application data and audit logs.

Gym Operations & Member Administration System

Technologies: Java, Spring Boot, Hibernate, MySQL, REST APIs, JWT

- Designed and developed a scalable full-stack web application for Gym Operations & Member Administration using Java, Spring Boot, Hibernate, and MySQL, following Agile SDLC practices.
- Built and integrated RESTful APIs for CRUD operations on member and membership data, and implemented automated due-date reminders to reduce manual follow-up for staff.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) with Admin and Staff roles, writing clean, maintainable code with unit testing to ensure secure access control.

EDUCATION

B. Tech - Computer Science and Engineering

Achariya College of Engineering Technology | (2022 - 2026) - **CGPA: 7.56**

Higher Secondary Certificate (HSC) - Achariya Siksha Mandir | (2021 - 2022) **- 80.3%**

Secondary School Leaving Certificate (SSLC) - Jawahar Vidhya Nikethen High School | (2019-2020) - **89%**

CERTIFICATIONS

- Hacker Rank - Java Certificate
- GUVI (HCL) - HTML & CSS Certification
